## **WAR REPORTS CAUSE DECLINE IN STOCKS**

Break Not Sufficient to Indicate Fear of German Victory.

By BROADAN WALL.

New York, March 23.-Nothing counted for anything in the stock market today except the great battle raging in France and prices held remarkably firm in view of the report that the Germans had broken through the British line at St. Quentin. A moderate break of a point or so was seen at the opening of the market, but the selling continued so that the average decline was about two points when the market closed. The last prices were in most cases the lowest of the day.

Steel yielded more than 2 points, Baidwin and Car Foundry were down two points and did not recover. American Lecomotive did dute Suprior not open until a few moments be-All these orders immediately be-came affective and the stock yielded amother h...f point. Railway Steel Springs was another stock to have wide decline, the initial transaction being 4 points under the pre-vious close. General Motors, Marine

and Atlantic Gulf were also weak. and Atlantic Guir were also weak.

In the railroad list Atchison was about the worst actor with a decline of 33-4 points. Reading lost 2. Other railroads were steady.

Mexican Petroleum went down

Mexican Petroleum went down more than two points.

These declines were only such as have obten been seen in response to ordinary news and in view of the tremendous importance of the battle how in progress, it might fairly be said that stocks were strong today. The market held so well largely because these strongs are solved. cause there are almost no stocks Eric ist officerried on margin in brokerage Gaston Wiss

In view of the action of the market today it was the opinion of veteran observers that any turn for the better in the war news would result in a sharp recovery of prices. Announcement is expected early in

cotton market today, although it finished above the bottom. I should be shou

rearing movement, closing steady at a new visiting of the port for the day were about 1,000 bales, against 10,616 bales a year ago.

Spot here was quiet at a decline of 50 points in 3,600 for mid upland; no sales. At New pricease it was firm and unchanged at 33,13;

### NEW YORK CURB MARKET.

New York, March-23.-Following an unsteady New York, March-23.—Following an unsteary opening, prices on the recently prominent curb stocks declined further and losses of from fractions to more than two points were secred to off eleven points in sales made on the floor of the local stock exchange stocks, with Cherrolet showing the largest excline. Midwest Refining was the weak feature of the oil group, scoring a loss of about two points.

Commercial National Bank sold off eleven points in sales made on the floor of the local stock exchange in yesterday's session. The stock sold ex-rights, which were valued at 12½ points or better. Sales

## CHICAGO GRAIN.

By JOSEPH F. PRITCHARD.
Chicago, March 23.—There was an absence of seaboard bids for cash oats in the Chicago market today and a decline in premiums of % to % cent. This had a depressing effect on futures. The embargo on shipments of oats to the east remained in force and there was little disposition to buy freely at prevailing levels. Local receipts were not large. The most effective buying of futures on the weak spots was by shorts and resting orders. The weather continued favorable for seeding of oats and indications are for generally fair conditions the next few days.

Special reports say that deterioration of a pronounced character is to be seen in sections of Western Kanasa as well as in parts of Oklahoms. Rain is needed badly in order to prevent further losses, as the condition is low in the drought-stricken territory. Farmers will not sell any wheat that they may own and allow it to be shipped out of the territory referred to.

There was a weaker feeling in the market for hog products, mainly because of the lack of trade and the big run of hogs in the Westduring last week. By JOSEPH F. PRITCHARD.

during last week,

cops discovered Luke trying to get into a sewer.

They watched him for a second or two and then decided that it would be cheaper to arrest Luke than to put the D. C. to the expense of unstopping the sewer.

"Pay a fine of \$25," said the court. "If there is anything wrong with your head the jail authorities will find it out."

The Winged Brick.

How can a brick fly around the Covenant has been kept open daily.

Careless Frank.

"Ah was sneakin' in de back way ob mah house, Jedge," said Frank Seals, "cause Ah didn't want my wife to know Ah was out late?"

"But why did you enter someone else's house, instead of your own and then remove what you found there?" the court asked Frank.

"Ah dunno, Jedge, Ah must have been drunk cause Ah neber steals, swipes, lifts, or takes anything."

"Frank was charged with removing two pictures from a house and hiding the munder his coat.

Of course, it is possible for a man to become confused in the dark—but he surely knows when he is in his own front room and when he is in a front room belonging to someone else.

The two pictures were not worth a "Well," said the court, after some lake on life by coming into contact, more with God and church.

# TO TOUR CITY

## Army and Navy Will Be Given Trip by D. C. War Camp Community.

Everything is in readiness for the monster sight-seeing tour of Washington, planned by the District of Columbia War Camp Community Service for enlisted men of army, nevy and Marine Corps, it is expected that 1,000 or nore autos will make up the parade this afternoon.

Belated offers of machines were received all day yesterday and up-til late last night, and the list of more than 200 Washington car own-Defense Council Favors Plan for The Woman's Land Army of America was endorsed yesterday by the woman's committee, Council of National Defense, which recommended the plan to the New England of the commended the plan to the New England of the commended the plan to the New England of the commended the plan to the New England of the commended the plan to the New England of the commended the plan to the New England of the commended the plan to the New England of the commended the plan to the New England of the commended the plan to the New England of the commended the plan to the commended the commended the commended th

National Defense, which recom-mended the plan to the New Eng-land chairman.

It was pointed out that while the plan might not be so success-ful in Western farming sections, it was very good for New England. was very good for New England, ice Club, at 626 Pennsylvania ave-where farms are small, and agri-nue northwest, but all machines to where larms are small, and agriculture intensive.

The plan is for groups of from
ten to seventy women to camp near a large farm or group of farms,
and "hire out" for extra labor. A
housekeeper or several of them accompany the unit. At least two to

company the unit. At least two to three weeks' preliminary training in time the parade is to be led by the Engineers' Band from Washingen to the heavy farm work and the ried in a big sight seeing motor-bus, the use of which has been of-fered for the tour. If this is done the White House machines, the machine from the British Embassy and those loaned by members of the

Soldiers, sailors and Marines who are lucky enough to be occupants of cars donated by the management of the National School of Domestic Early in the church year the United Art and Science have another treat in store for them. At the end of the tour these men are to be guests of the young women students of the school at a party and dinner, few weeks the mobilization of our armies in all parts of the country diers and officers, who were assignated to the various camps and barracks in and near the city for military training and instruction. These young men, from good homes These young men, from good homes, nany of them graduates from colof pretty young women as hostoses, and then a return trip home by motor car will constitute the after-noon's and evening's fun. Several hundred Marines from the leges and technical schools, were and

big camp at Quantico are to be in the city on leave today and many of these will take in the tour. Engineers to the number of 1,000 are to march in a body from Washington Barracks to the starting point of the tour, and men from all the campe in and near the city, in-cluding Camp Meade men, will be among those who enjoy the sights The weather man has promised sunny skies and moderate tempera-ture for the afternoon, which will add materially to the pleasure of the

ride about the city.

The tour is to cover about twenty miles and it is expected the cars will all be back at the starting oint not more than two hours after

the parads starts.

## GERMANS STILL HOLD

Diplomatic Attache Was Caught at Aland Islands.

The corner and hit the bull's-eye?
It is a great mystery how a brick come to go through a window in Roxybelle Moore's house.

An investigation of the ground around Roxy's house showed that it was a physical impossibility for a person to stand directly in front of this window and send a brick through it.

There is no place near enough to stand. But this phase of the question is not as important as who threw the missile.

The cops arrested Abe Jackson. He is the boy who "looked like he iddi it."

Roxy and Abe had been sweethearts once. Lately they have had a falling out.

And it seemed as though Abe said something or other about Roxy going away for a long journey if she didn't make up.

The girl was sitting quietly by the window one evening knitting.

All of a sudden a brick whized by without saying "good evening."

Abe had to put up a \$19 bill to get out of court.

Careless Frank.

The church during the evening as a rendex ous for how he been work in for the very going and your proposed in the evening as a stand that he very going and the seem working for the relationship to realize that they are to play in the window one evening knitting.

All of a sudden a brick whized by without saying "good evening."

Abe had to put up a \$19 bill to get out of court.

Careless Frank.

The church during the evening and stranger statches staff at Petrograd, was rendex ous for its who have been invited to attend the religious services and the young assistance within the power of the young lacked action to the Grown and the party within the power of the young lacked at the young assistance within the power of the young lacked as till leld on the Aland these services have been constantly the window one are reconstantly the window one as all house a home, and these strangers feel at home, and to realize that there were true friends interested in them and their welfare.
